THE PREFERRED SUPPLIER

Ease of installation, operation and maintenance make Jets® an excellent choice.

PAPI DU PAPI/Built by ISA Yachts

This 164 feet superyacht was designed by Andreas Vallicelli and delivered early 2012. It is equipped with a 50MBA Vacuumarator® unit and 14 Jets® toilets.

JETS® VACUUM SANITARY SYSTEMS

REFINED RELIABILITY

The most important aspect of a sanitary system is reliability.

Known across the industry for dependable performance, Jets® continues to combine innovation with elegant design. Jets® PEARL is a unique, easy-to-clean toilet with innovative features and elegant design. Jets® CHARM is a wall-mounted vacuum toilet with nozzle flushing and no inner edge - designed for effortless cleaning.

JETS® PEARL

QUICK FACTS

Jets® OPAL TOTO

- Hidden water connection
- Rear, soft rear, and front (bidet) wash modes
- Adjustable water pressure, nozzle position, and temperature
- Automatic lid open / close, auto flush, soft nightlight & energy saving mode

DESIGNED FOR COMFORT

Experience luxurious comfort with Jets® OPAL TOTO.

Jets® OPAL - TOTO is a wall-mounted vacuum toilet fitted with TOTO electronic bidet. It has a warm water nozzle, heated seat with soft-closing function, and a decalcification program.

Jets® JADE (floor & wall models) has low water consumption with enhanced flush and discharge. The cover and seat are quick and quiet closing.

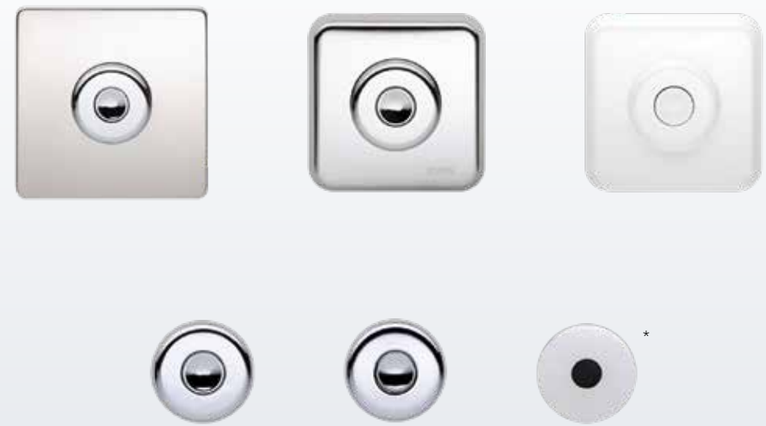

Throughout our industry, Jets® vacuum toilets have earned a reputation for reliable operation. In recent years, customer require-ments have shifted towards toilets that are also well-designed and visually pleasing.

JETS® JADE FLOOR

RELEASE BUTTONS

Our range of elegant release buttons complements any vacuum toilet installation.

Designed for both new systems and easy upgrades, they combine reliable performance with sleek, modern style.

* Jets® Touchless is a sensor activated system that eliminates the potential for cross contamination and promotes good hygiene.

THE HEART OF OUR SYSTEM

The unique Vacuumarator® pump is the heart of any Jets® system. It creates vacuum, macerates sewage and discharges – in one single-pass operation.

The Vacuumarator® pump is the most compact and reliable vacuum generator available for sanitary systems. It is highly efficient in transporting any combination of black and grey water under vacuum.

Renowned for their reliability and impeccable quality, more than 65,000 Vacuumarator® pumps by Jets® are currently in operation worldwide.

FLEXIBILITY

Small footprint and low weight allow unique installation flexibility.

UNSURPASSED RELIABILITY

The Vacuumarator® pump is the most reliable vacuum generator available for vacuum toilet systems.

HIGH CAPACITY

The Vacuumarator® pump provides unmatched system performance.

RANGE OF VACUUMARATOR® PUMPS BY JETS®:

Jets® Edge S Vacuumarator® pump

Jets® Edge M Vacuumarator® pump

Jets® Edge L Vacuumarator® pump

Jets® Edge XL Vacuumarator® pump

65.000

PUMPS IN DAILY OPERATION WORLDWIDE

VACUUM UNIT:

Several Vacuumarator® pumps can be assembled in larger, modular units for higher performance, improved capacity and added redundancy.

ELEGANT SIMPLICITY

Built on 40 years of experience, the latest Jets® technology offers unmatched reliability with minimal components and easy maintenance.

Compact vacuum units save space and eliminate the need for tanks or ventilation pipes, providing exceptional installation flexibility.

With powerful vacuum generation and seamless integration with any wastewater system, Jets® is the ideal choice for all yachts - ensuring hygiene, comfort, and reliability for guests and crew alike.

WE CONTINUE TO CARE

We strive to please our customers by sharing our expertise and support worldwide.

A Jets® representative is the customer's local expert and point of contact. They will do their utmost to solve problems and carry out inspections, installations and repairs without interrupting your day-to-day operations.

Original parts are available worldwide from our handpicked network of local representatives and from strategically located central hubs.

RAGBOX® BY JETS®

Most vacuum sanitary installations are equipped with a rag hook behind each toilet, designed to stop unwanted items from entering the vacuum pumps.

The Ragbox® allows the crew to remove trapped objects far more easily and quickly - sparing your guests from unpleasant odours or spillage.

JETS® PISTON VALVE

Ease of installation, operation and maintenance make Jets® Piston Valve an excellent choice. It can be delivered as a complete flexible retrofit kit.

The complete mechanism can also be used as a replacement for the VFD-valve on earlier toilet models.

TOUCHLESS FLUSHING

Jets® Touchless is a sensor activated system that eliminates the potential for cross contamination and promotes good hygiene.

Jets® Touchless can be operated either by zone registration or by hand gesture.
The design of the Jets® Touchless is modern and fits seamlessly into countless interiors.

PIPECARE SOLUTIONS

Proper maintenance is an important part of keeping any pipe system running smoothly. Vacuum systems need regular attention to stay efficient, hygienic, and operational.

Jets® Pipecare Solutions offers effective treatments for scaling and maintenance in vacuum sanitary systems.
